## NEED FOR EVENT CANCELLATION COVERAGE

In addition to some of the more obvious reasons for cancellation such as rain, hurricanes, windstorms, earthquakes or snow, events are exposed to many different risks that could prevent the event taking place, for example:

### Claim Scenarios...

- A failure of services at the venue, e.g. power outage or broken plumbing
- Flooding or fire at the venue or in the immediate vicinity
- Emergency repairs to the venue
- Inability to access a venue due to blocked access routes
- Act or threat of terrorism at the venue or surrounding areas that prevent access or closure of all or part of the venue
- Death, accident, illness or travel delay of named insured person
- Outbreak of a communicable disease at the venue, e.g. legionaries disease
- Adverse weather
- Public transport strikes which prevents people from getting to the venue or the local authority closes the event due to safety reasons
- Ash clouds resulting in cancellation of flights so attendees are unable to get to the venue
- Adverse weather
- Property damage to the venue that results in the venue being closed
